Date : 14.03.2016

To,

Sir,

Greetings !!

Yeshwantrao Chavan College of Engineering, Nagpur, has been a preferred destination of students from all over the country for the last 30+ years. The college has been successful in converting young men and women into hardcore professionals, which is evident from the lives of more than 15000 alumni. A large part of the students who have passed through the portals of the College came from less privileged socio economic back ground, and have acquired technical qualification for the first time in their families. The college is proud to be associated with these people who braved the odds in their lives and rose to dizzying heights in their professional career. We are committed to opening doors to the most talented students, no matter what their background.

YCCE began its mission of Quality Technical Education in 1984 and is affiliated to Rashtrasant Tukadoji Maharaj Nagpur University since then. The various programs offered by the college went through rigorous accreditation processes of National Board of Accreditation (NBA) and secured the coveted recognition from NBA which is the benchmark of quality in technical education on six different occasions. The RTM Nagpur University has acknowledged Research potential of the faculty and recognized all the academic departments of the college for conducting higher research, leading to Master of Engineering (M.E.) by Research and Doctor of Philosophy (Ph.D.), looking at the robust teaching learning processes. YCCE was the first college in the Central India to secure Academic Autonomy granted by the RTM Nagpur University, State Government of Maharashtra and University Grants Commission (UGC), New Delhi. The college now implements the curriculum for all its 09 undergraduate and 12 Post Graduate programs, which is specially designed for better employability of students. The current intake of students at UG level at First Year B.E. is 1020, lateral entry at Second Year B.E. level is 204 and 261 at First Year of PG programs. Besides, more than 100 scholars are engaged in research work for their Ph.D. Degrees.

It is found that many of our students face difficulty in pursuing their dream of higher education due to economic constraints. YCCE, therefore, has decided to create an Endowment Fund from the donations received from alumni and philanthropists from every walk of life that helps YCCE recognize individual potential and support some of the most talented and deserving students and enable them to continue their education at the highest level. The Fund will offer vital support in a variety of ways including Research Scholarships, Meritorious students Awards, other awards and prizes helping to promote a culture of excellence, raising ambitions and academic standards.
